

Yanez, Damian

Subject: SAWE SE Region 3rd Quarter Chapter Meeting
Location: CR - SAV - RDC IV 1st Floor - Lift

Start: Thu 9/27/2018 11:30 AM
End: Thu 9/27/2018 1:00 PM

Please join us for our 3rd Quarter Chapter Meeting. Our guest speaker will be Tom Tanner from Gulfstream, who will give us some fresh insight into predicting and managing mass properties for wiring systems (EWIS) which are always a huge challenge. Members in attendance will enjoy free pizza and drinks, while non-members can eat for only \$5. Remember that you can join SAWE for just \$30 for your first year, and Gulfstream employees can get reimbursed for half the cost. For those who can't attend in person, you can join via Webex using the instructions below.

Please **RSVP by 9/24/18** using this meeting notice, or by calling or emailing me, so we can have the right amount of food on hand. Also, feel free to forward this invitation to others who may be interested in mass properties prediction, control and verification. When you respond, please let me know if you will be attending in person, so we can get the right head count for food. Thanks.

Thanks very much, and we hope to see you there!

Regards,

Damian
